November 15, 2021

Dear Families,

Today we were made aware that a staff member, a daycare student, and a high school student have tested positive for Covid-19. Contact tracing has been completed with 4 additional staff and 38 additional students identified as close contacts.

At this time, we are following the District Health Department's guidelines and strongly recommending masks but they are not mandated. To help protect your family from the negative effects of Covid-19, please consider the following information that is provided from the Health Department...

1. Fully vaccinated individuals deemed a closed contact do not have to quarantine as long as they are not experiencing symptoms.
2. Regardless of vaccination status, when individuals are wearing masks properly and are 3 feet or more from the exposed individual, they do not need to be quarantined.
3. Students and staff not vaccinated, not wearing a mask, and who are within 6 feet of an individual for 15 cumulative minutes who test positive, will be quarantined for a minimum of 10 days.

Feel free to call me with any questions or concerns you may have. Should you have any questions for the Health Department you can reach them at 231-723-3595.

Sincerely,

Jake Veith

Jake Veith, Superintendent
Bear Lake School District
